PROFESSIONAL SUMMARY

Full-stack web engineer and founder of **OKJTechnologies**, a Nairobi studio that takes web platforms from first idea to live, supported product — planning, design, engineering, launch and support in one continuous build. Since 2021 I have shipped **20+ production platforms across 11 sectors** on a modern **Laravel + Next.js / React / TypeScript** stack, with integrated payments (M-Pesa, Stripe, Paystack), real-time features, passkey authentication and full CI/CD. I begin every project by mapping every stakeholder the platform will touch — a method from the AfriLabs programme in Addis Ababa — so the system earns real use, not just a launch.

WORK EXPERIENCE

- OKJTechnologies**
Founder & Principal Engineer
Apr 2021 – Present · Nairobi
- Founded and run a full-stack web engineering studio; delivered **20+ production platforms end to end across 11 sectors**, owning planning, UX design, engineering, launch and ongoing administration.
 - Architected and shipped flagship products: **Tena** (hospitality guest-relationship platform), **Najenga** (construction collaboration with drawing annotation, budgets and OCR document search), **The Football Experience** (fan travel & financing, with Terik Tours) and **Tibu** (hospital management toward cross-facility interoperability).
 - Engineered a modern **Laravel + Next.js / React / TypeScript** stack with integrated payments (M-Pesa Daraja, Stripe, Paystack), real-time notifications (Laravel Reverb / Pusher), passkey & 2FA authentication, and role-based admin dashboards.
 - Built live operational systems including the **Nyalife Hospital Management System** (role-based clinical workflow, front desk to receipt), **Kuba Home Services** (marketplace across 13 categories, PWA + Android) and **HUCAA** (alumni platform with M-Pesa donations).
 - Held production quality with automated testing (**Pest, PHPUnit, Playwright, Vitest**) and **GitHub Actions CI/CD**; deploy and administer platforms across Vercel and cPanel.
- Lawyers Hub**
Software Developer, Justice Innovation
Sep 2022 – Dec 2024 · Nairobi
- Built and maintained the **Lawyers Hub Digital Policy website** — Kenya's flagship LegalTech hub for AI-governance research, daily policy bulletins and interactive Africa digital-trade maps, with a CMS non-technical staff could publish to independently.
 - Engineered the **Africa Law Tech Festival platform** — online ticketing, live notifications and event mapping for the continent's largest LegalTech gathering.
 - Built the **Africa Digital Policy Institute** course platform (cross-continental capacity-building and participant tracking); contributed UI/UX for the **AI Policy Lab**, a virtual learning facility spanning Europe and Africa.
 - Delivered the **Digital Trade Hackathon** platform (ALTF 2023), which supported **11+ innovations** for the AfCFTA single digital market; contributed to a bilingual (EN/FR) database of African AI startups with the UN ECA.

Software Developer Trainee · Sep 2022 – Feb 2023

- Built and published the **Boda-Boda Law Project** report platform; co-ran field data collection (Kisumu, Namanga) and rider capacity-building on traffic regulations.

TECHNICAL SKILLS

Backend
Laravel PHP REST APIs MySQL
Sanctum / Fortify Scout · Meilisearch

Frontend
Next.js React TypeScript Inertia.js
Tailwind CSS Radix · shadcn/ui

Real-Time & Integrations
Reverb / Pusher M-Pesa (Daraja)
Stripe Paystack WhatsApp / Telegram

Auth & Security
WebAuthn passkeys 2FA
OAuth (Socialite) RBAC (Spatie)

Quality & DevOps
Pest · PHPUnit Playwright Vitest · Jest
GitHub Actions Vercel · cPanel
PWA · Capacitor

Design & Product
UI/UX Prototyping Design systems
UX audits Performance & SEO

SECTOR EXPERIENCE

LegalTech · HealthTech · PropTech · FinTech ·
E-commerce · Events · NGO / Social impact ·
AgriTech · Automotive · EdTech · Marketplaces

EDUCATION

Riara University
B.Sc. Computer Science
Second Class Honours, Upper Division

Makini High School
KCSE — Grade A
2011 – 2014

PROFESSIONAL DEVELOPMENT

AfriLabs — Leveraging Stakeholder Relationships through Ecosystem Mapping & Building (Addis Ababa)

AI & productivity tooling — Claude, Cursor, Windsurf, Gemini, NotebookLM applied to design, analysis and accelerated delivery.

Selected Projects

A cross-section of 20+ platforms delivered across 11 sectors · okjtech.co.ke

Tena

HOSPITALITY

Guest-relationship platform for African hospitality — direct, lasting host–guest relationships from short-stays to hotels, with subscription billing and SMS OTP.

Laravel · React · TypeScript · Inertia · Cashier · M-Pesa · Pest

Najenga

PROPTech

Construction collaboration workspace — drawings, budgets, timelines and conversations in one live view for engineers, architects, contractors and owners.

Laravel · React · Meilisearch · Annotorious · Tesseract OCR · AG Grid

The Football Experience

FINTECH · TRAVEL

Plan, finance and share the journey to World Cup / AFCON / Euros — connecting fans with travel, finance and event partners. Built with Terik Tours.

Laravel · React · Reverb · Paystack · WebAuthn · Playwright

Kuba Home Services

MARKETPLACE

Marketplace connecting households and businesses with vetted professionals across 13 categories — booking, multi-provider payments and ratings. PWA + Android.

Next.js · Laravel · Meilisearch · Stripe / Paystack / M-Pesa · Capacitor

Nyalife Hospital Mgmt System

HEALTHTECH

Role-based workspaces for reception, nursing, labs, pharmacy and billing — the full patient journey from front desk to receipt. First live instance of Tibu.

Laravel · React · Inertia · Reverb · Spatie Permission · FullCalendar

Naoa

EVENTS

A digital home for the whole wedding — before, during and after the day — with multilingual guests, QR check-in and real-time updates.

React · Laravel · Reverb · i18next · QR check-in · Spotify API

GM Coaching

EDTECH

MBA admissions and consulting-interview coaching for African candidates — scheduling, payments and a client workspace.

Next.js · Laravel · Stripe · Calendly · shadcn/ui · Reverb

Dickson, Gitonga Advocates

LEGALTECH

Law-firm website with secure client and staff portals — matter tracking, publications and consultations, backed by document parsing and citation tooling.

PHP · MySQL · Symfony components · Doctrine · Eyecite · Tabulator

Silversky Events

E-COMMERCE

Everything an event needs — catering, sanitation, AV, furniture and décor — ordered in one cart, with delivery coordination for organisers and drivers.

Laravel · React · Inertia · Fortify · WebAuthn · Leaflet · DomPDF

Global Harmony Initiative

NGO

Nonprofit platform for causes, initiatives and impact stories — self-managed by a small team, with reporting, exports and passkey sign-in.

Laravel · React · Inertia · WebAuthn · Chart.js · Sentry · GSAP

South Ring Autos

AUTOMOTIVE

Workshop management with online booking, live repair-progress tracking and loyalty rewards — building customer trust through visibility into every repair.

Next.js · Laravel · Reverb · Socialite · Radix UI · GitHub Actions

Culture Monitor

HR · ADVISORY

Measures organisational culture through structured surveys and analytics — leaders define target culture, employees respond, advisers turn the gap into action.

Next.js · Laravel · TypeScript · Reverb · Recharts · shadcn/ui
