PROFESSIONAL SUMMARY

Full-stack engineer, technical co-founder and creative lead in Nairobi. I found and build production web platforms end to end — **20+ shipped across 11 sectors** on a modern **Laravel + Next.js / React / TypeScript** stack with payments, real-time and passkey auth — and I lead the brand, social and video creative that takes products to market. **Co-Founder & CTO of TenaFi** (tena.host) and **co-founder of The Football Experience**; **Design Lead at TrioDigital**, where my creative has driven campaigns reaching hundreds of thousands — engineering depth and a designer's eye in one person.

EXPERIENCE — ENGINEERING & PRODUCT

OKJTechnologies 2021 – Present · Nairobi
Founder & Principal Engineer

- Founded and run a full-stack web engineering studio; delivered **20+ production platforms end to end across 11 sectors**, owning planning, UX design, engineering, launch and administration.
- Architected flagship products: **Najenga** (construction collaboration with drawing annotation, budgets and OCR search), **Kuba Home Services** (13-category marketplace, PWA + Android) and **Tibu** (hospital management toward cross-facility interoperability).
- Engineer a modern stack with integrated payments (M-Pesa Daraja, Stripe, Paystack), real-time (Laravel Reverb / Pusher), passkey & 2FA auth, and role-based dashboards; hold quality with **Pest**, **PHPUnit**, **Playwright** and **GitHub Actions CI/CD**.
- Shipped live operational systems including the **Nyalife Hospital Management System** (front desk to receipt) and the **HUCAA** alumni platform with M-Pesa donations.

TenaFi · tena.host 2025 – Present · Nairobi
Co-Founder & Chief Technology Officer

- Own all technology for **TenaFi, Africa's guest-relationship platform for hospitality**: branded guest-WiFi captive portal turning each stay into a consented first-party profile, a guest CRM, and email / SMS / WhatsApp campaigns that drive direct, commission-free repeat bookings.
- Deliver the platform end to end — captive portal, profiles & CRM, campaign automation, operator dashboards, analytics and subscription billing — on Laravel + React with M-Pesa, passkeys and Kenya Data Protection Act-compliant data handling.
- Took the MVP live with pilot operators and set the technical bar for the pre-seed raise: reliability, instrumentation and a repeatable device provisioning process.

The Football Experience 2023 – Present · Nairobi
Co-Founder & Head of Technology

- Co-founded a platform (with **Terik Tours**) that helps African fans plan, finance and share the journey to major tournaments — World Cup, AFCON, the Euros — connecting them with travel, finance and event partners; built on Laravel + React with Paystack, real-time updates and passkey auth.

Lawyers Hub 2022 – 2025 · Nairobi
Software Developer, Justice Innovation

- Built and maintained the **Lawyers Hub Digital Policy website** — Kenya's flagship LegalTech hub for AI-governance research, policy bulletins and interactive digital-trade maps — plus the **Africa Law Tech Festival** ticketing, notifications and event-mapping platform.
- Delivered the **Africa Digital Policy Institute** course platform and the **Digital Trade Hackathon** platform (ALTF 2023), which supported **11+ innovations** for the AfCFTA single digital market.

KCSE — Grade A

EXPERIENCE — DESIGN & CREATIVE

- TrioDigital

Design Lead / Lead Creative

2026 – Present · Nairobi

 - Lead Creative on the **AmCham Business Summit 2026** campaign (AmCham Kenya, with U.S. Mission partners) — creative across email, LinkedIn and X. The organic push drove **440,565 LinkedIn impressions** from 260 posts, with email sends averaging **33% open** and **7.7% click-through**, both above industry benchmarks.
 - Lead Creative & Website Lead for **Rosslyn Riviera Mall** — daily premium-brand content across a **~28K-follower** presence (Instagram, TikTok, Facebook, X, LinkedIn), print & signage artwork, short-form video, plus website upkeep and SEO.
 - Campaign creative for the **Ubumuntu Arts Festival** (Kigali, Rwanda) across its social platforms.

- Freelance — Video & Creative Production

Video Editor & Graphic Designer

2019 – 2024 · Nairobi

 - Produced and edited for YouTube channels I helped scale: **Mastertrail** (~10K subscribers) and **UKE Webcast** (~10K subscribers) — full video editing, production and channel graphics.
 - Editor for **Your Free Consult** (~6K subscribers), a women's-health webcast by Kristina Sule — an engagement that led directly to the Nyalife clinic build.
 - Brand and long-form document design (including multi-page annual-report presentations); Adobe Premiere, Filmora, thumbnails, motion graphics and social kits.

SELECTED ENGINEERING PROJECTS

Najenga PROPTECH Construction collaboration workspace — drawings, budgets, timelines and conversations in one live view for engineers, architects and owners. Laravel · React · Meilisearch · Annotorious · Tesseract OCR · AG Grid	Kuba Home Services MARKETPLACE Marketplace connecting households with vetted professionals across 13 categories — booking, multi-provider payments and ratings. PWA + Android. Next.js · Laravel · Meilisearch · Stripe / Paystack / M-Pesa · Capacitor
Nyalife Hospital Mgmt System HEALTHTECH Role-based workspaces for reception, nursing, labs, pharmacy and billing — the full patient journey from front desk to receipt. Laravel · React · Inertia · Reverb · Spatie Permission · FullCalendar	Naoa EVENTS A digital home for the whole wedding — before, during and after — with multilingual guests, QR check-in and real-time updates. React · Laravel · Reverb · i18next · QR check-in · Spotify API
GM Coaching EDTECH MBA admissions and consulting-interview coaching for African candidates — scheduling, payments and a client workspace. Next.js · Laravel · Stripe · Calendly · shadcn/ui · Reverb	Dickson, Gitonga Advocates LEGALTECH Law-firm site with secure client and staff portals — matter tracking, publications and consultations, with document parsing and citation tooling. PHP · MySQL · Symfony components · Doctrine · Eyecite · Tabulator
Global Harmony Initiative NGO Nonprofit platform for causes, initiatives and impact stories — self-managed by a small team, with reporting, exports and passkey sign-in. Laravel · React · Inertia · WebAuthn · Chart.js · Sentry	South Ring Autos AUTOMOTIVE Workshop management with online booking, live repair-progress tracking and loyalty rewards — trust through visibility into every repair. Next.js · Laravel · Reverb · Socialite · Radix UI · GitHub Actions

PROFESSIONAL DEVELOPMENT

AfriLabs — Leveraging Stakeholder Relationships through Ecosystem Mapping & Building (Addis Ababa)

AI-accelerated delivery — Claude, Cursor, Windsurf, Gemini and NotebookLM applied across design and engineering.

Also delivered: TenaFi guest platform · TAMCON Engineers · Nissi Insights · The Good Kenyan Foundation · Silversky Events · Wisdom Capital · Culture Monitor · OmniShop (Solar & Storage Live 2026).
